**Message from the General Manager &
Head Golf Professional:**

John H. Childs, Jr.

johnchilds@cypresslakesgolfclub.net

Please return any cart keys you may have accidentally taken home. Also, please return any range buckets. They are not to be taken off property. We have had to re-order more last month. This is just an unnecessary club expense. Thank you.

It is amazing how much stuff is left in returned carts on a daily basis. It is always a good idea to note the number cart you are in.

Another good idea is to label your clubs with: your name & phone number. We have hundreds of clubs turned into us annually. If we had a way of contacting the owner, we wouldn't have hundreds that are unclaimed.

We have a few new faces in the Pro Shop, please make sure you remind them to book your future times. There are no AUTO rollover times. Also, remember you can make tee times up to two weeks in advance.

If you cannot make your tee time, please call us and let us know. As all of you know, it is staying very busy and tee times are sometimes hard to get.

Rule of the month:

Question: What do I do if I accidentally move my ball while looking for it? Is there a penalty?

Answer: There is no penalty but the ball must be returned to original spot and the lie must be recreated.

Rule: 7.4

Know the rules, it may save you strokes.

**A word from your Golf Course
Superintendent: Andy Woolston**

andywoolston@cypresslakesgolfclub.net

This month we will be focusing on weed and insect control. Adult mole crickets are already tearing things up because of the very warm weather we have had the first two months of this year.

We will again have a company come in to slit in Fipronil which controls mole crickets and fire ants. This is planned to take place Wednesday the 29th. The concrete company should be finishing up the cart path improvements this month. Thanks for your support as we do our best to make Cypress Lakes a fun place to play golf.

The introduction of the range mats has helped significantly with the turf quality of our driving range. Allowing it time to heal from the constant usage. Beginning in March, we will begin coming off the mats on Friday, Saturday, and Sunday. When the growing season is at it's peak, the mats will be in the daily rotation.

Tip of the Month:

I usually do not recommend fertilizing until mid-April, but this year is so unusual. We will probably be fertilizing a month earlier than usual. I feel like the turf will need the early feeding to compete with the weed and insect pressure.

Range matt schedule

Our Tee Guidelines:

- #1 tee: 250+ yard avg. drive
- #2 tee: 225-249 yard avg. drive
- #3 tee: 200-224 yard avg. drive
- #4 tee: 175-199 yard avg. drive
- #5 tee: 150-174 yard avg. drive
- #6 tee: 125-149 yard avg. drive

Always play READY GOLF.

Pro Tip of the Month

Don't fix the wrong problem.

Before changing your swing, grip, stance, ball position, etc. make sure you diagnose the problem. It may be an easy fix. BUT, if you change the wrong thing, you now have multiple problems.

If the ball starts at your target, then curves away from it, you may have a simple grip issue. Strengthen your grip for more of a hook and weaken your grip for more of a fade. REMEMBER: when strengthening or weakening make sure you move both hands not just one.

If the ball does not start at your target you may have a more serious problem with your swing path. Fixes include but by no means are limited to: setup & alignment, correcting your transition, grip, or a flying elbow just to mention a few.

Fixing a problem is easier once you know what the problem is.

Good Luck! John

Do you want to enjoy golf more?????
