Aerification is also planned for April 27th & 28th of this month. We will be doing a conventional core aerification. We will do the front nine on Monday and the back nine Tuesday. Please contact the Pro shop for any changes that may happen. The maintenance crew has stayed busy performing irrigation upgrades, sodded rough areas, and assisted with new cart paths. This is along with the regular maintenance that is done every day to get the course ready for play. We want to thank you for helping us out when it was wet by staying on the cart paths. Your cooperation and encouraging words help keep us motivated to make Cypress Lakes a fun place to play golf.

Turf Tip of the Month

When temperatures stay in the mid 60's for lows it is time to start fertilizing warm season grasses. This is also time to treat mole crickets and fire ants.

Andy

Rule of the Month

Question: My ball is close to a tree, can I bend a branch (not break it) away from me so that I don't hit it when I swing?

Answer: No, you cannot bend or break any growing or attached natural object.

Rule: 8.1a

Good Luck! John

Pro Tip of the Month

How to Repair a Ball Mark

A ball mark repair tool is recommended, but other pointed devices can be used (tee or knife). Push don't pry, starting from the back and sides, gently push and stretch the turf to the center of the mark. Work around the ball mark until it's filled in. Avoid lifting & twisting the turf harshly. Use your putter to lightly tap down the mark. Fix other marks in addition to yours.

Let's keep our greens in great shape.

Etiquette 101

Repair your ball mark plus one and tap down imperfections in the greens. This will help the putting surfaces for everyone.

Your old driver may be worth something

If you have a driver that isn't that old (within the last 10 years) it may be worth something. Bring them by John's office and he will let you know how much they are worth and possibly make you a cash offer.
